

Many asked at APCE 2009 if the image presentations would be made available. The short answer is no, but there are other possibilities for a yes. The image presentations were made as high definition videos suitable for projection on the high quality projectors used at APCE, rather than as programs for a PC to be shown on a consumer digital projector. In addition, the four image presentations were designed for the theme of A Light to the Nations.

The yes answer is that I would be willing to work with others as a consultant or teacher to provide either images, image presentations or information on how to make the presentations according to specific needs. I can be contacted at dsyoung@peoplepc.com.

My thanks again to APCE for the opportunity to share images of God's people and creation.

Shalom, Dave Young
