We were living in a time that felt very uncertain and polarized before the COVID19 pandemic. New realities of life have only added to questions about what the future looks like, how we are responding to competing narratives, and where God is in all of it. This pre-event will help youth workers engage with the stories that every youth and family bring into the church with the hope of setting the stage for greater understanding of the self, others, and the Holy. The event will focus on mental health and social justice.
