

Digital Storytelling

as a teaching method

Objective: combine the art of storytelling with multimedia to enhance learning and content processing in creative ways that encourages transmission of faith stories and ideas

1

Gather Media

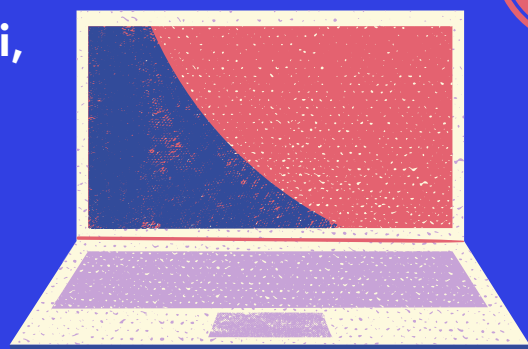

- Gather a series of pictures that will form the foundation of the story
- Use free image sites or storytelling apps
- Must have permission to use images

Upload Media

- Upload images and/or video into a slide share or movie app/program
- Possible options: Powerpoint, Prezi, Canva, Google Slides, iMovie, ClipChamp
- Upload images and/or video in story order

2

3

Add Audio/Dialogue

- Record story audio
- Ideas:
 - children retelling a bible story
 - a parent and child in conversation on a topic
 - a personal or institutional history, experience or faith story

Add Extras/Enhancements

- music
- effects
- intro/closing images
- church branding
- website/social media
- contact information
