## SOME TIPS TO REMEMBER:

- **ASK** Questions and **LISTEN** with your ears and heart! Where is the Spirit already at work?
- Be humble, curious, empathetic, and teachable. **DO NO HARM.**
- Follow all volunteer registration, background checks, and school policies to ensure kids are safe.
- Carefully assess what time and resources your church has to give, and plan for longevity to build trust and effectiveness. Short bursts of support can unintentionally cause harm.
- **UNDER** promise and **OVER** deliver--never the other way around!
- The students and school are **ALWAYS** the priority, not the church & its needs.
- All Glory is for God, not the church's ego. Check your ego at the door.
- Don't create more work for the school.
- Joining a team with other community partners is a great way to start. Silos are not helpful.
- While the school may have many struggles, good things are happening too! **NEVER FORGET** to celebrate the **GOOD** and talk about the school in a positive light in the community! Be an encouragement to the students and staff!
- Treat all children with respect and equality--don't play favorites or create jealousy!
- Partnership is **BECAUSE** our faith calls us to love our neighbors, **NEVER** as a way to share faith. Evangelism is **NOT** appropriate and crosses legal boundaries.
- Do justice. Love kindness. Walk humbly. Each person is a child of God!
